

Thermocouples and RTDs

- Temperature probes manufactured to your requirements
- All thermocouple types including Type J, K, N, R, S, T and B
- Platinum resistance thermometers including Pt100 and Pt1000
- PTC and NTC thermistors
- Probe materials such as stainless steel, ceramic, Inconel and titanium
- Probes available with hardwired cable, or fitted with a sealed connection head
- Optional temperature transmitter and extension cable
- Curved or straight probes, diameters from 1 mm to 30 mm
- Choice of process connections
- Let us know your requirements and we will help you find a suitable probe

Ceramic probes

Curved probes

DIN connection head
and threaded mounting

Exposed-junction wire thermocouples

Hardwired cables

Low-cost sealed connection boxes

Probes fitted with M12 connectors

Probes with flange mount

Screw clamp process
connection
